

Paradise Lost Software Restore Guide

Document Part #: 040-0149-01 Rev. C

Follow the instructions below if you need to re-install software on your cabinet.
Total installation time is about 15-20 minutes.

Important: When you use the System Recovery Disk, you will erase all game settings, and coin and game audits. It is advisable to contact Technical Support before using the System Recovery Disk to resolve a problem.

System Recovery Disk

1. With the cabinet powered ON, open the DVD-ROM drive and insert the CD labeled **System Recovery Disk**. Power the cabinet OFF and then ON. The computer will boot from the CD, and you will see the installer screen on the monitor.
2. After about 5 minutes, when you are prompted, remove the CD and turn the cabinet OFF and then ON. (**Do not** insert the Game Install Disk yet!)
3. When the computer reboots, you will see a series of processing screens. After about 3-4 minutes the computer will automatically reboot. You will briefly see a message saying "Insert Game Disk 1", followed by the GLOBAL VR logo on the screen. Proceed to install the Game Install Disk as described below.

Game Install Disk

1. Open the DVD-ROM drive and insert the DVD labeled **Game Install Disk 1 of 1**. The computer will read the DVD automatically (do not reboot). You will see the Installer screen as the software copies files, and after about 6-7 minutes the computer will reboot.
2. After about 1 minute more, Initial Calibration screen will appear. Remove the disk from the DVD-ROM drive.
3. Press the **TEST/BACK** button to open the Operator Menu. Select **Controller Test** and follow the onscreen prompts to calibrate both guns (see your System Manual for more information).
Note: The Initial Calibration screen will be displayed until you open the Operator Menu.
4. Use the Operator Menus to change any desired settings.
5. Play a game and use both guns to verify proper operation. (Press the **SELECT** button in Attract Mode to insert Service Credits for testing the game.)
