

Priority Level: Medium — Recommended Action for Affected Systems		
Attention:	All Service Personnel	Bulletin: SB-046 Date: 2/19/2009
Products:	Paradise Lost with the GA-G31MX-S2 Motherboard	
Issue:	Change BIOS setting if <i>Found New Hardware Wizard</i> appears at boot.	

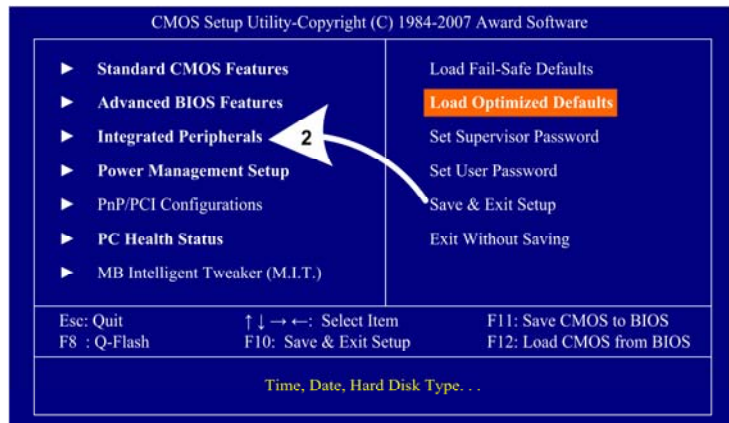

Symptom: A Found New Hardware Wizard dialog box appears when the game boots.

Solution: Disable Onboard H/W LAN in the BIOS, as described below.

This issue affects only Paradise Lost systems with the GA-G31MX-S2 Motherboard.
 Do the following to disable Onboard H/W LAN:

Important: Do not change any other BIOS settings.

1. Power off the game and connect a keyboard to the computer. Power on and press the **DEL** key during boot. The **CMOS Setup Utility** will start.
2. Use the (↑↓) Arrow keys to highlight **Integrated Peripherals** and press **Enter**.

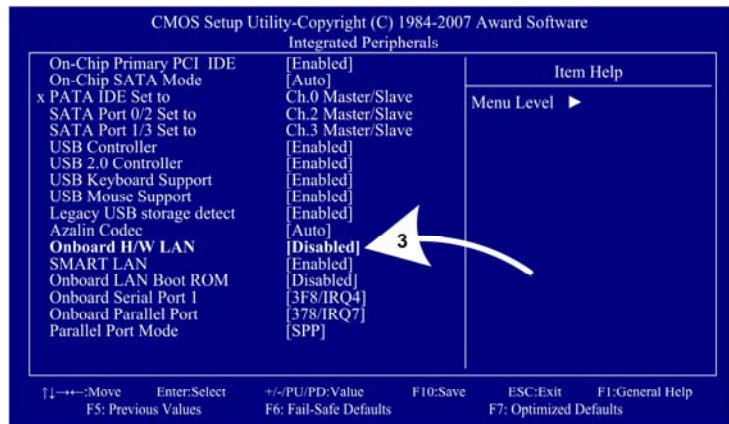

3. On the Integrated Peripherals menu, use the (↑↓) Arrow keys to highlight **Onboard H/W LAN**, and then use the **Page Up** and **Page Down** keys to change the setting to **Disabled**.

4. Press **F10**. The following prompt will appear:

Save to CMOS and EXIT (Y/N) Y

5. Make sure "Y" shows at the end of the prompt (use the arrow keys to select, if necessary), and press **Enter** to save the settings and exit.

6. Verify that the Hardware Wizard does not appear as the game reboots.
7. Refer to the GLOBAL VR Service Website for more information about BIOS settings.
