

Document Part #: 040-0058-01

Follow the instructions in this document to update your EA SPORTS™ MADDEN NFL™ FOOTBALL Game Software to version 1.2.

Version 1.2 game software updates your system with new features, including the latest enhancements for Tournament Play. Refer to the *Software Release Notes for EA SPORTS™ MADDEN NFL™ FOOTBALL, Version 1.2* for detailed information.

Important: Software Version 1.2 Game Disks are labeled in **red**. Discard all other game disks, but **keep your existing Emergency Recovery Disk (Part #: 050-0057-01 Rev. A)**.

Perform the following steps to update your game software. You **do not** need to run the Emergency Recovery Disk. **Installation time is about 10-15 minutes.**

1. Open the CD drive and insert the CD labeled **Game Software Disk 1 of 2**. The computer will read the CD automatically (do not reboot). You will see a series of screens.

Note: If nothing happens, make sure you inserted the correct disk. Re-open and close the CD drive.

2. After 5-10 minutes, the CD drive will open and you will be prompted to insert Disk 2. Insert the CD labeled **Game Software Disk 2 of 2** in the drive. The computer will read the CD automatically (do not reboot). You will see another series of screens and then the system will reboot.

Note: You may see a blank screen for up to 2 minutes while the system reboots.

3. After the system reboots and the game starts, remove the disk from the CD drive.

Note: Steps 4 and 5 apply to registered cabinets only.

4. The system should automatically perform a Maintenance within a minute of booting. Do not enter the Operator menu until the Maintenance finishes (about 3-4 minutes).
5. If the game does not automatically run the Maintenance, press the Operator button, scroll to Registration in the Operator Menu, and select Force Call to ensure that the cabinet synchronizes properly
6. Verify **Madden: 1.2.0** is displayed in the lower left-hand corner of the Operator Menu screen.
