

### Jamma Connector

#### Notes:

<sup>1</sup>Jamma video connections are not used with the Wells-Gardner<sup>®</sup> monitor upgrade.

<sup>2</sup>Jamma button connections are not used if the buttons are connected directly to J6 on the Jamma Conversion Board.

<sup>3</sup>For mono audio, only the **Left Speaker+** and **Left Speaker-** speaker connections are used.

Power is supplied to the Jamma Harness through J1 on the Jamma Conversion Board.
