

Power Transformer Connection for 230 VAC System

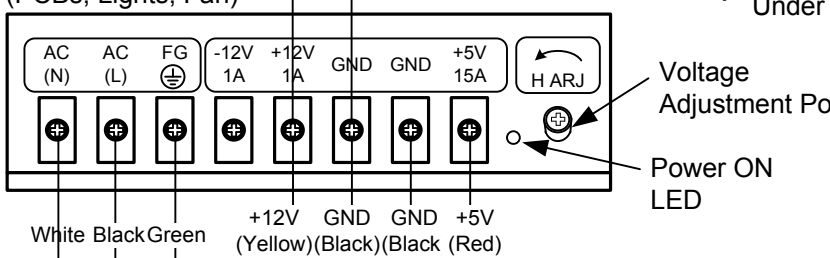

Note:
Connection order does not matter.

AC Power Plate

+12/+5 VDC Power Supply (PCBs, Lights, Fan)

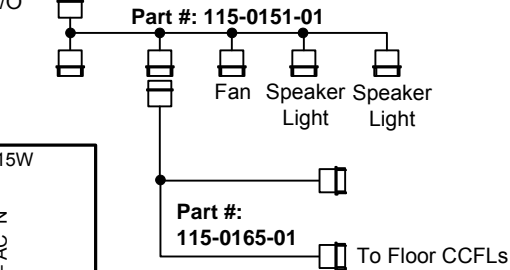

Set Input Voltage to 115 through hole in top.

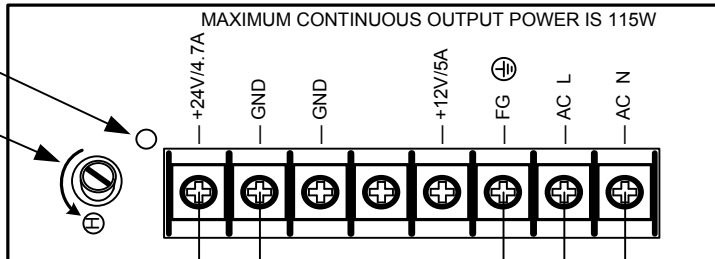

Part #: 115-0008-01
To AC Power Strip

Part #: 115-0146-01
Part of Main Harness

Part #: 115-0153-01
+12 VDC to CCFLs Under Seat Assembly

+24 VDC Steering Power Supply

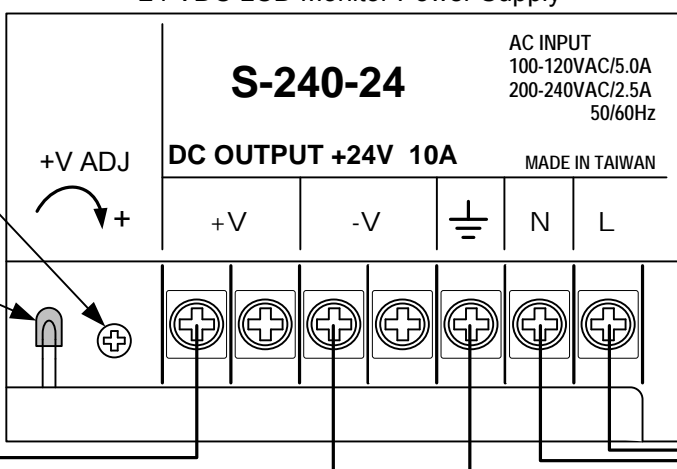

Check Input Voltage (115 or 230) through hole in side.

Part #: 115-0007-01
To Force Feedback PCB

Part #: 115-0008-01
To AC Power Strip

+24 VDC LCD Monitor Power Supply

Notes: Wiring Shown for Deluxe Cabinets.
Only one marquee light on Standard Cabinets.

+24 VDC Out to LCD Monitor

PN: 115-0121-01
To AC Power Strip
