

Dragon's Lair, Dragon's Lair II, and Space Ace Game Pack Installation Instructions

Game Pack Contents:

- 1 USB Security Unlock Key
- 3 Game Software CDs: Dragon's Lair, Dragon's Lair II, and Space Ace

Step-A: Verify UltraCade Multi-Game System Version Number

Do the following to verify that your UltraCade Multi-Game System is running version 3.84 or greater.

1. Press the **Test** button located inside the coin door on the lower front of the cabinet.
2. The version number is displayed on the bottom left hand corner of the Operator Menu. If the version number is less than 3.84, you will need to update your system software. If the version number is 3.84 or greater, proceed to install the game pack.

Step B: Install the Games

1. Make sure your cabinet is powered on and running the attract mode.
2. Insert **Disc 1 - Dragon's Lair** into the CD-ROM drive.
3. Turn the cabinet **off**.
4. Wait five seconds, and then turn the cabinet back **on**.
5. When prompted (you will see the first screen shown on page 2), connect the USB Security Unlock Key to an available USB port or USB extension cable. The system will automatically detect the Unlock Key and begin to copy the games from the CD to the hard drive. (You will see the second screen shown on page 2.)

Important: Once you install the USB Security Unlock Key on your UltraCade Multi-Game System, the Unlock Key will lock itself to the specific system and cannot be used on any other systems.

Figure 2. Insert Unlock Key and Installation Screens

6. After Disc 1 - Dragon's Lair has completed installation, insert **Disc 2 - Dragon's Lair II** in the CD-ROM drive.
7. After Disc 2 - Dragon's Lair II has completed installation, insert **Disc 3 - Space Ace** in the CD-ROM drive.
8. Once the game installation is complete, remove the CD and Unlock Key, and keep them in a safe place. Your new games are installed and ready to play!
